BULK SMS CATALOGUE

Bulk Sms Services

We provide bulk SMS (Short Message Service) services that works across all networks and this is achieved by providing a portal where our clients can purchase SMS at a set price as they require and use our payment systems indicated in our website.

We also provide the access process of the service and features of the packages provided which include SMS scheduling, standard pricing across all networks,

Increase Your Sale By using

branded messages, creation of contact groups among others as explained in our website.

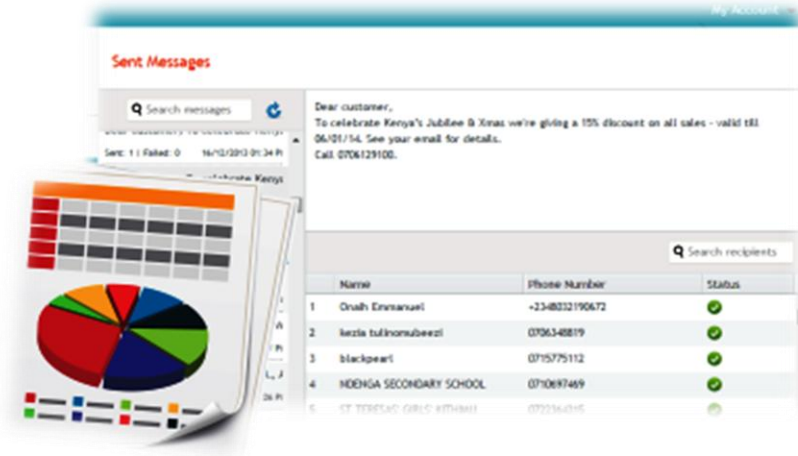

In order to acquire more information on the same CONTACT us via email info@gbt.co.ke and get your question

answered. As our customer you have the choice to renew or update your SMS package anytime anywhere using any device as long as it can access the web platform.

Features Of The Service

Every feature especially crafted to meet your communication needs. We have features that are common across all organizations and others that are customized to address the needs of specific organizations. For example, Bulk SMS for schools' lets schools send exam results and fee balances to parents while ' Bulk SMS for churches' lets churches serve daily bible quotes and verses to congregants.

Instant delivery of your messages. Need to send 1,000 messages? No problem. We

will have them sent in seconds and then provide you with detailed delivery reports showing who did and who didn't receive your message. What's more?

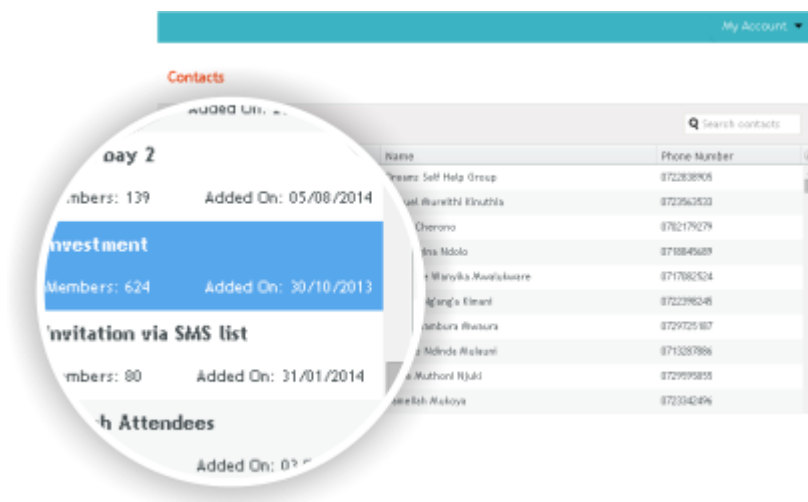

You can even download and print the reports.

Branded messages across all networks. Send text messages with the name of your organization as opposed to a number. For example, our organization is called,

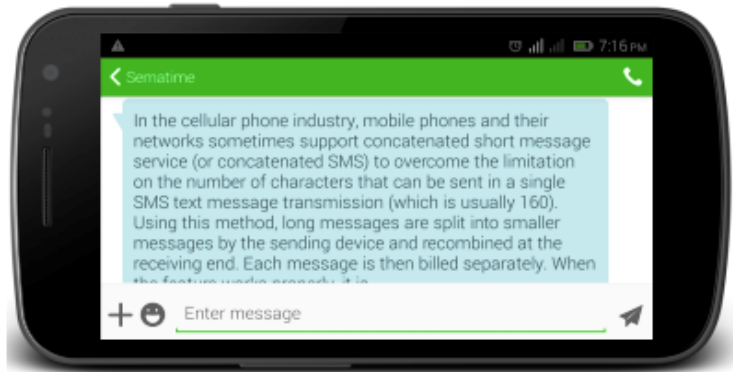

GreenBear Technologies Ltd, then all our text messages will be sent with **GreenBear** as the sender identifier.

Group-based contacts management. Our contacts manager lets you import contacts from an Excel file and then organizes them into groups. For example, you could have a group called 'Staff Members' that contains contacts for your members of staff. You can have as many groups as you want with each group have infinite number of members.

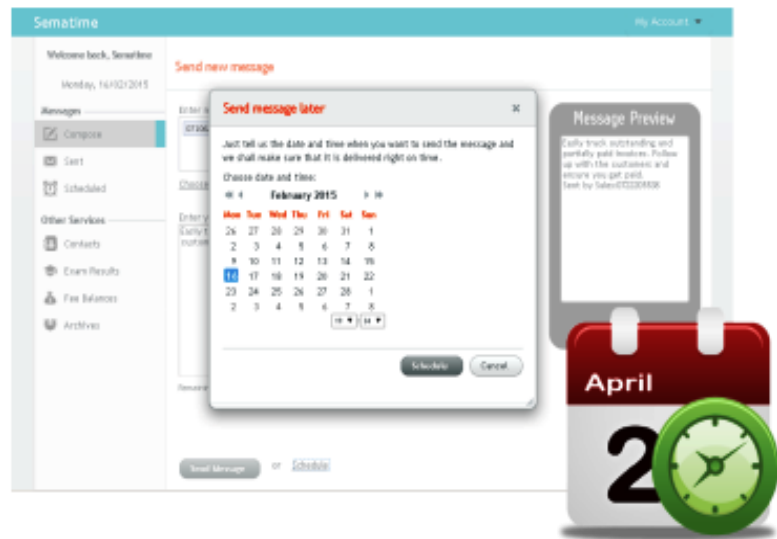

Concatenated messages (longer than 160 characters); With our Bulk SMS services, you can compose messages of up to 480 characters (3 pages) and still have them delivered as one long message instead of delivering them separately.

Message scheduling.

When you send a message, Our Control Panel allows you to specify the date and time when the message should be sent. We'll store the message for you and then have it sent automatically. Later, you can login to your account, go to 'Sent Messages' and get a comprehensive delivery report.

Personalized SMS messages; Address the message recipients by name. Message

personalization allows you to automatically include your preferred salutation and the person's name at the beginning of the message. For example, Dear Jane, Dear Lucy, Hi Mike et cetera.

Multiple account users. We even let you create subaccounts for your employees or different departments or geographically-separated units. For example, a subaccount for your Mombasa-based team and another for your Eldoret-based team.
